

Sentinel creates value for our members, pensioners and other stakeholders through a business model developed over decades of retirement fund management.

The Fund is one of the largest self-administered, defined-contribution, umbrella pension funds in South Africa, actively managing R82,5 billion as at 30 June 2017.

It is structured as a type 'A' umbrella pension fund that offers in-house self-insured risk benefit cover (death and disability) and monthly pensions.

Sentinel actively pursues fund growth through world-class investment management underpinned by advanced IT systems and specialist skills. The Fund has 40 640 active and deferred members and 92 active participating employers.

Monthly pensions are paid to 34 420 former members and beneficiaries.

Sentinel's long-term investment strategy makes a meaningful contribution to the communities where its members and pensioners reside.

Components of value creation

- We act with **prudence and reasonable care**
- We act with **skill, competence and diligence**
- We act in the **best interest** of all our members and beneficiaries
- We **abide by** applicable laws, regulations and rules
- We **communicate with all stakeholders** in a timely, transparent and accurate manner
- We **review on a regular basis** the efficiency and effectiveness of our success in **meeting our principal goals**

Vision: To position and grow Sentinel to **continually provide sustainable retirement solutions** to all its members in a **socially responsible manner**.

Mission: Sentinel Retirement Fund is dedicated to **providing innovative and sustainable retirement solutions to all its members** by delivering **cost-effective, superior investment returns and quality service**. We will continue to be **pioneers in the industry** for the benefit of stakeholders on our lifelong journey together.

Sentinel operates **within a prudent risk framework** that complies with the Pension Funds Act (No 24 of 1956) to generate **consistent returns over the long term**.

Our risk model has been **well tested** by all the 'boom and bust' cycles of the past 70 years.

Sentinel's broad strategic objectives are to:

- **Maintain and enhance** excellence in management and governance
- **Maintain and enhance** the Fund's investment risk management performance
- **Retain and grow** the membership and participating employer base to ensure the Fund's long-term sustainability
- **Transform** the Fund to be more representative of the South African demographics at Board, management and employee levels

Resources flow through Sentinel in the form of the **four capitals pertinent to our operations**, being the **financial, social and relationship, human and intellectual capitals** as defined by the integrated reporting <IR> framework. The Board and management decide on the **mix and quantities** of these capitals to be allocated to ongoing operations and new endeavours.

Governance

Sentinel is a recognised world leader in integrated reporting for retirement funds. Although not compelled by legislation, Sentinel chooses to govern itself in accordance with the King III code and reports to its stakeholder universe in terms of the international integrated reporting <IR> framework. As good corporate governance underpins our long-term reputation in the sector, Sentinel continues introducing best term practices in its <IR> report. We will closely examine the King IV code to be adopted in 2018.

Business activities and services

Contributions, investments, benefits and annuities

Sentinel's business activities are to manage:

- **Members** (contributions and benefits)
- **Assets** (investments)
- **Pensioners** (annuities paid)

These activities are **underpinned by impeccable administration and member services**. In simple terms, **how Sentinel works**.

Retirement and risk fund contributions are received monthly from contributing members and their employers.

Members' contributions are invested into selected asset classes, through our investment managers, in the local and international investment markets.

Over time, the invested pool of funds grows, enhancing the financial balance (fund credit) for each contributing member.

When the contributing member reaches retirement age and becomes a pensioner of the Fund, a monthly pension benefit (annuity) is provided from the Fund using the accumulated fund credit.
